Clubs and extra-curricular activities

Summer Term 2016

Extra-curricular activities are a major strength of Lealands High School.

Enrichment activities range from clubs at lunch time and after school, to weekend and holiday clubs, plus a number of residential trips. Throughout the academic year, all departments contribute to our program ensuring we offer an extensive range of activities to engage all. Students are consulted regularly on opportunities they would like to be made available within school.

As part of our specialist sports status, there is a wide range of sporting opportunities available for all students. These clubs vary from individual to team sports, and provide broad and balanced opportunities for students of all aptitudes and abilities, to participate in promoting a positive, healthy lifestyle through participation and competition.

Our Performing Arts Department provide opportunities for all with a popular music, dance and drama timetable encouraging the creative side of Lealands' students to grow. There are a number of performances throughout our calendar year, providing students with the opportunity to showcase the wonderful skills they develop within performing arts lessons.

We believe that promoting leadership opportunities and skills will ensure our students achieve the best they can when they leave Lealands. There is also a wide range of leadership opportunities for our partner primary school students, across a number of subjects allowing students to learn and develop interpersonal skills in a fun and active way.
