Dear Parent/Carer

We are pleased to announce that from Monday 25th February, we are removing plastic cups from our water stations.

We have made this decision because we have been using plastic cups way too much that it has affected the world and the school. Most plastic cups are not biodegradable. Wasting plastic cups pollutes the environment, land and water. The methods used for plastic disposal, like incineration, release harmful fumes and toxic gasses such as carbon monoxide into the environment. Around 40% of Europe's plastic is used only once and then thrown away, leading to a truckload of plastic being dumped in our ocean every minute.

At Lealands, we respect our environment and wish to help solve this global problem. Therefore, we are removing plastic cups which are only used once and are not biodegradable.

We are still providing water stations but it is the student's responsibility to bring their own re-usable bottles to school. If they are not able to bring one, then they can buy one from the school at the reduced cost of £1.30.

We appreciate your support in the matter of removing plastic cups in our school. If you have any concerns or further questions, then please contact the school and we will try our best to answer any questions or concerns to our best ability.

Yours sincerely,

The #PassonPlastic Team

Denisa Cabascu, Charles Drake, Molly Conrad, Harvey Sullivan, Hannah Campbell, Jakob Harding, Nathan Ayling, Jayden Johnson, Jaden Brown.
