Dear parents/carers,

Re: Important Information For Key Workers

The latest announcement from the government is that schools will close from Monday for most students in response to the coronavirus outbreak. However, Lealands will remain open for 'key workers' and vulnerable children.

If you believe you are classed as a 'key worker', this includes; NHS workers, police officers and delivery drivers and require your child/children to continue attending school, please could you respond to us either by text/app message or reply to this email or email the school at admin@lealands.luton.sch.uk with your name, child/children's name/s, occupation and place of work.

We are still awaiting further guidelines with regards to this from the government, but are trying to establish possible student numbers in the first instance.

Best regards

Lealands High School
