

Thursday 5th September

Dear Parent/Carer,

For those parents/carers who have ordered a Chromebook through the school portal the expected delivery of these has been delayed due to circumstances out of our control. The expected delivery of these is now scheduled for the 16th September. Please accept our apologies for the delay and be assured we are doing everything possible to ensure that students receive their Chromebooks as soon as possible.

All staff are aware and will make any necessary adjustments needed due to this slight delay which also includes extended learning (homework) expectations.

For those parents/carers who were unable to order a Chromebook through the first portal opening, a second portal opening will become available from 5th September to 10th October 2024 and information for this will be sent accordingly.

If you have any queries regarding the purchase or use of a Chromebook for your child in school, please do not hesitate to contact me.

Yours sincerely,

Mr W Cullum
Assistant Headteacher
