

Subject	Child development
Director of subject	Miss Griffiths
Subject Intent	<p>Our prime objective within Child Development at Lealands is to provide learners with essential knowledge, transferable skills and tools to improve their learning in other subjects with the aim of enhancing their employability when they leave education, contributing to both their personal development and future economic well-being.</p> <p>Cambridge Nationals in Child Development will equip learners with sound specialist knowledge and skills for everyday use. They will also challenge all learners, by introducing them to demanding material and skills; encouraging independence and creativity; providing tasks that engage with the most taxing aspects of the National Curriculum (including Health and Well-being for Child Development and the importance of softer skills such as communication skills to ensure a child's right to independence and dignity).</p>
Years of study	Years 10 and 11
Exam board	OCR - J809
