

What is identity?

- Your identity is who you are.
- The identity of a person or place is the characteristics they have that distinguish them from others.

Challenge 1

Write or draw characteristics that make you unique in or around the thought bubbles.

Some ideas to help you:
Your favorite: colour, food, sports team, box set, game, song lyrics, animal saying...

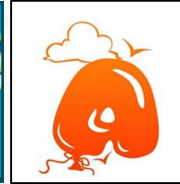

Your beliefs, principles, values...

Your role model or hero...

Challenge 2

Create an urban letter design based on your identity to go on your Art sketchbook in September. Look at the examples below

Use the first letter of your name, choose an urban font (lots of examples on line) and use symbols and colours that link to your identity. Don't forget to use the ideas you have already collected together for Challenge 1

You can draw with any materials or produce this digitally

Numeracy - use a ruler to draw a 10x10cm square to create your final design in. If you are using a computer stick to the same dimensions.

Success criteria - if I looked at your design I would be able to tell you something about your identity!

Responsibility

Respect
