10th June 2021

Dear Parent/Carer

We are delighted to inform you that the 'One to One Device Scheme Portal' is now open for the ordering of your child's chromebook. It is an expectation for every student in Year 7 to have a Chromebook when they start school in September. The school's one to one device partners are Edde (Portal and device management) and Haptic (Device procurement). We are extremely pleased to have these two well respected companies supporting us on what will be an exciting development in the Teaching and Learning at Lealands High School.

We understand that the purchasing of a Chromebook is a considerable investment, however, we believe that the packages that we are able to offer you are exceptionally good value and will significantly improve your child's educational experience within the classroom and whilst completing their own independent studies.

For further details on the specification of the ASUS Chromebook and insurance details please refer to the attached document from Edde.

A further 'Bring Your Own Chromebook Device' option is available for any parents/carers who wish to utilise a currently owned Chromebook or purchase their own. If this is an option that you are considering please contact me as soon as possible to discuss the required specifications and suitability of the Chromebook being considered as well as the one off school administration fee that will have to be paid for the required Google for Education licence and connection fee (there will be a one off £45 fee for the licence and connection fee). My contact details can be found at the end of this letter.

Details on how to register your child for the 'one to one device scheme' and the finance packages available are all included on the attached document from Edde.

To access the portal please type the following into your preferred search engine, use the QR code or visit the school website where a link will take you directly to the portal. All orders placed on the portal will be checked by the school and Edde for eligibility for the scheme.

<https://lhs.parentportal.biz/>

We hope you agree that this is an exciting development for the school and your child and to ensure that the Chromebook is fully utilised a comprehensive support and training package will be made available from September for staff, students and parents. In the meantime, please read through the frequently asked questions document and acceptable usage policy that are included. If you have any further questions or concerns please do not hesitate to contact the school leaving your name and contact details and the nature of your query. Please use the subject reference 'one to one device scheme' to ensure that these are directed to the correct members of staff within the school.

Yours sincerely,

Mr W Cullum
Assistant Headteacher
